

LERISHIA NAIDOO

UI/UX Designer / Web Developer / Digital Designer

Objective

Creative and detail-oriented UI/UX and Digital Designer with experience in web development, branding, visual communication, and digital content creation, bringing a user-focused approach to design. Skilled in HTML, CSS, with working knowledge of JavaScript. Experienced in using Generative AI to enhance creativity, streamline workflows, and improve production efficiency. Thrives in fast-paced environments, contributing to collaborative teams to deliver modern, intuitive, and impactful digital experiences.

Experience

UI/UX Designer & Digital Designer - Remote

Developer Hut | Jul 2026 - Present

- Design UI/UX mockups, apps, games, websites, and interactive digital experiences, supporting both design and development.
- Create social media, video, marketing, pitch decks, reports, and branded digital assets for large-scale clients.
- Build interactive experiences using Playable and contribute to streamlined digital production workflows.

Mid-level Designer / Developer - Hybrid

The Foschini Group | May 2024 - Jun 2026

- Designed and developed responsive websites, digital interfaces, branded assets, layouts, posters, and digital collateral.
- Progressed from graphic design into web development, using Astro, JavaScript, HTML, CSS, and GitHub to design and build websites.
- Created reusable templates and design assets to improve consistency, productivity, and brand alignment.
- Assisted in designing and streamlining creative and development processes, using AI tools to automate tasks and deliver work faster and more efficiently.
- Edited video content and applied accessibility enhancements across digital deliverables.

Marketing Assistant & Marketing Designer – Full time

SFF PTY LTD | Jun 2022 - Feb 2024

- Designed and produced marketing assets, including flyers, promotional content, and campaign visuals.
- Maintained and updated websites, improving UI, visual appeal, and user experience.
- Created photography and videography content for brand and product marketing.
- Strengthened brand identity through consistent visuals, including a user-friendly digital catalogue.
